POWERSTROKE®3 CLEAR 20" DRUMHEAD

The clear drumhead is Remo's brightest and most open sounding head. They're known for their bright tones, resonance, and sustain. Clear heads are best known as batter and resonant heads opening up the sound of tom-toms and bass drums. The Clear Powerstroke®3 features a thin underlay at the outer edge of the head to subtly dampen unwanted overtones. This creates a near-perfect balance of response and tone control that has quickly made Powerstroke 3 one of Remo's most preferred drumheads.
