12 DELREX PICKS 0.60 IN TIN BOX

Guitar Players are always seeking new methods to improve their tone and articulation. In search for alternate materials to use in the production of guitar picks D'Andrea chose Delrin. At the same time continued to address the issue of pick slippage by experimenting with modern gripping surfaces. Following years of research, production employing Delrin with a matte finish spawned D'Andrea Formula Delrex line. Available in six gauge specific colors.
