

D2 WIRELESS MONO (1 SHOTGUN+ 1RX) (1X MIC + 1X RX SETUP) WIRELESS HYPERCARDIOID SHOTGUN MIC

Take away the wireless mic on your collar and start recording professionally. With the SYNCO wireless shotgun mic, you are getting both a much richer vocal sound from a condenser mic capsule with a diameter of 16mm, and the convenience of a wireless microphone setup without wires.

Thanks to the brass shotgun design, the D2 Wireless can capture clean 24-bit/48 kHz audio from voices up to 3m away and even from singers up to 100m on a concert stage. The signal is then transmitted wirelessly to your camera, smartphone, or computer within a range of 200 meters, with a broadcast-grade latency as low as 0.012s.

On top of the physical noise cancellation from the shotgun itself, one-click noise cancellation is built into pickup directional vocals with precision and purity, making it perfect for interviews, podcasting, ASMR, speech Recording, live events, or even big concert vocal recording.

*This setup includes 1x Microphone + 1x Receiver.

Iper-Cardioid Polar Pattern Battery Powered Wireless Control USB Type-C

D2 WIRELESS MONO (1 SHOTGUN+ 1RX) (1X MIC + 1X RX SETUP) WIRELESS HYPERCARDIOID SHOTGUN MIC

PRODUCT DETAILS

KEY FEATURES

Wirelessly on Boompole

16mm Mic Capsule for Rich Vocal

Hyper Cardioid Pickup with Brass Shotgun

Broadcast-Quality Audio at 200m

Secure Every Recording

Plug & Play on Any Device

Mono & Stereo Versions for Any Production

SPECIFICATIONS

MICROPHONE

Mic Sensitivity	-35dBv
Polar Pattern	Hyper-Cardioid
Audio Latency	12ms
SNR	>94dB
Max SPL	120dB (Tested)
Modulation Type	GFSK
EIRP	10dBm
Bit Depth/Sample Rate	24bit/48kHz
Battery Type	Polymer Lithium-Ion

D2 WIRELESS MONO (1 SHOTGUN+ 1RX) (1X MIC + 1X RX SETUP) WIRELESS HYPERCARDIOID SHOTGUN MIC

Battery Capacity	320mAh / 3.7V
Working Time	~11.5 Hours
Charging Time	~90 Minutes
Charging Temp	0–45°C
Operating Temp	-10–45°C
Size	19 x 201 mm
RECEIVER	
Output Modes	Selectable Stereo / Mixed Mono
Wireless Frequency	2.4 GHz (2400-2483.5 MHz)
Audio Latency	12ms
Audio Output	Digital & Analog Dual Output
Monitoring Output	3.5mm Unbalanced
Modulation Type	GFSK
Digital Output	USB-C 48kHz/24bit
EIRP	13dBm
Effective Range	Up to 200m (unobstructed)
Working Time	~11 Hours
Charging Time	~80 Minutes
Size	45 x 35 x 19.65 mm
