XTALK XMAX 13

(13X UNIT, DUAL-EAR) 2-WAY INTERCOM HEADSET SYSTEM, 500M TRANSMISSION RANGE, AI NOISE-CANCELLATION AND BLUETOOTH CONNECTION

XTALK XMAX 13

SYNCO Xtalk XMax group communication headsets, the next-level communication system to the Xtalk XPro, adopt a dual-ear design to isolate external noises effectively. Equipped with an AI noise-cancellation chip and dual-microphone noise reduction algorithm, it guarantees smooth and clear 500m-range communication for teams. Its unique one-click Signal Boost enhances signal transmission distance and penetration. Additionally, the Xtalk XMax features Bluetooth connectivity, allowing for wireless connection to mobile phones for calls and music playback. The indicator lights help users quickly identify headset settings and group relationships, enhancing on-site scheduling efficiency.

*The package includes:

1. -13x Headset
2. -1x Data Transfer Cable
3. -2x 6-slot Charging Station
4. -1x 2-slot Charging Station
5. -2x Charging Adapter
6. -1x Storage Case
7. -13x Mic Windshield
8. -26x One-ear Foam Cushions
9. -13x Rechargeable Battery
10. -13x Carrying Bag
11. -1x Warranty Card

XTALK XMAX 13

(13X UNIT, DUAL-EAR) 2-WAY INTERCOM HEADSET SYSTEM, 500M TRANSMISSION RANGE, AI NOISE-CANCELLATION AND BLUETOOTH CONNECTION

PRODUCT DETAILS

KEY FEATURES

- Sound Isolation Perfected with Dual-ear Design
- 500m Transmission Range for Large-scale Event Communication
- Group Communication Headsets with Dual-mic AI Noise Cancellation
- Bluetooth Connection for Calls and Music Enjoyment
- Wide Range of Using Scenarios
- Unlimited Connectivity, Flexible Communication, and Clear Dispatch
- Supercharge the Signal with One-press Boost Mode
- Headsets for Group Communication with 3.5mm Monitoring Port
- Mute All Remotes for Clear Instructions with the Dominant Mode
- User-friendly Updating and One-click Pairing on SYNCO EasyGo

SPECIFICATIONS

Wireless Technology	Digital 2.4GHz
Transmission Mode	Full-Duplex
Operating Range	500m (LOS)
Frequency Band	2.4GHz
Approximate RF Sensitivity	<-90dBm
Radio Output Frequency	20dBm
Power	USB-C 5V

XTALK XMAX 13

(13X UNIT, DUAL-EAR) 2-WAY INTERCOM HEADSET SYSTEM, 500M TRANSMISSION RANGE, AI NOISE-CANCELLATION AND BLUETOOTH CONNECTION

Battery Capacity	1050mAh Li-ion Battery
Working	Time 24H
Charging Time	About 2.5H
Frequency Response	150Hz~7KHz
Signal-To-Noise Ratio	? 65dB
Distortion	<1 %
Microphone Type	Condenser Microphone
Max Input Sound Pressure Level	>115dBSPL
Output Sound Pressure Level	Typical 98+3dBSPL (at 94dBSPL 1KHz)
Weight	About 242g (Battery Included)
Temperature Range	0~+45° C (Working Status); -20~+60° C (Storage Condition)
