

HRM-6

PROFESSIONAL CIRCUMAURAL STUDIO MONITOR HEADPHONES

Complete clarity and comfort. These studio monitor headphones have been built specifically for all stages of the music production process. Their design ensures an accurate, neutral sound and a comfortable fit even during long recording and mixing sessions. The HRM-6s are made to go the extra mile including an HD driver and 2-layer damping structure that deliver crystal clear frequencies of up to 40 kHz.

HRM-6

PROFESSIONAL CIRCUMAUURAL STUDIO MONITOR HEADPHONES

PRODUCT DETAILS

KEY FEATURES

The 40 mm HD driver units faithfully reproduce frequencies of up to 40 kHz, so you can hear every detail of your tracks. Plus with a maximum input of 2,000 mW distortion is reduced to a minimum even at high volumes.

Accurate sound

The soft leather ear pads with memory foam provide a snug and comfortable fit during long studio sessions.

The freely adjustable headband and swivel mechanism let you find the best size and angle to suit your needs.

Compact and portable

Cable: 1.2 m coiled cable (3 m when extended) and a 3 m straight cable
