FENDER PROFESSIONAL GLOW IN THE DARK CABLE, ORANGE, 18.6'(5M)

Electrify the stage with our Glow in the Dark Professional Series Instrument Cables. Crafted from glow-in-the dark PVC, these cables feature three classic fluorescent colors and high-quality components to transparently retain your sound while lighting up your rig. Sporting quiet and resilient spiral shielding, the cables are engineered to avoid twisting, kinking and any physical memory.

PRODUCT DETAILS

KEY FEATURES

Available in 10' and 18.6' lengths

8mm outer diameter wire jacket

22 AWG; 95% OFC spiral shielding

Nickel-plated connectors

For best results, leave the product in natural light or sunlight for a few hours prior to use to provide 2-3 hours of the bright glowing effect in dark conditions

The glowing effect and duration may wear off gradually after years of use
