

MI-65 MINI TOMS FOR MARCHING DRUMS

With space at a premium , the compact MI-65 Mini-toms answer the call for more sounds in a small area. The two shallow metal shells are connected- visually similar to a pair of bongos,and the 6" and 5" diameter tunable toms produce a short, powerful percussive effect. The mini-toms come with hardware (DA-244 and DA-250) to conveniently mount off thetop of a snare drum or other tom.
