

XDJ-1000MKII

# REKORDBOX-READY, DIGITAL DECK WITH HIGH-RES AUDIO SUPPORT

DIGITALLY REFOCUSED Based on its predecessor, the XDJ-1000MK2 improves usability through enhanced track browsing and support for high-resolution FLAC and ALAC audio files. It inherits the large jog wheel and 7-inch, full-colour touch screen from the CDJ-2000NXS2, as well as features such as 8 Hot Cues and Quantize. Download the rekordbox™ music management software or the rekordbox app to prepare your sets.

XDJ-1000MKII

# REKORDBOX-READY, DIGITAL DECK WITH HIGH-RES AUDIO SUPPORT

## PRODUCT DETAILS

### KEY FEATURES

CDJ-Style design. Equipped with the same size jog wheel and a 7-inch LCD touch screen as our CDJ-2000NXS2, you get intuitive control over your mix.

High resolution audio

Easily browse your rekordbox library using the rotary button next to the display, or use the Qwerty keyboard to search for specific keywords. Advanced features such as Matching and Track Filter help you play the right track at the right time.

8 Hot Cues allow instant playback at a preset point, while Quantize allows you to play cue and loop points in time with the music on tracks that have been beat analysed in rekordbox . Use Beat Jump to jump backwards or forwards 1, 2 or 4 beats from the current playback position.

Add the DDJ-SP1 to your set-up and access even more performance features. Simply plug in a USB cable and control up to 4 XDJ-1000MK2s using Pro DJ Link.

Pro DJ Link lets you connect up to 4 players or laptops via a simple LAN connection. Combine this with rekordbox and get your hands on enhanced performance features and track info, such as Beat Sync, Beat Countdown, Beat Jump and Phase Meter.

Shortcut button

Colour-coded USB port

Memory Cue
