

AIR VANTAGE WHITE DUAL PURPOSE LOUD SPEAKER

The Air Vantage can either be used as a stand-alone mid-top with LF enclosures in a main club system, or be paired with the Sub Vantage for monitoring duties. The same attributes that make it eminently suitable as a DJ monitor, such as true point source transmission and a smooth frequency response, also shine when it comes to filling a dance floor with high SPL and accurate sound. Particular attention was paid when designing its internal crossover to achieve the best possible phase response, which has allowed for prolonged listening periods at very high SPLs, with minimum fatigue. Venues with low ceilings are also a prime candidate for the mid-top, as its diminutive vertical dimensions and tight pattern control allow for close mounting to a ceiling. A fully adjustable mounting bracket is available, allowing any desired amount of vertical tilt to be applied. A Neutrik Speakon™ NL4s is provided for driver connections.

AIR VANTAGE WHITE

DUAL PURPOSE LOUD SPEAKER

PRODUCT DETAILS

KEY FEATURES

Fibreglass composite construction

Visually striking appearance

Fast transient response

Color: White

Applications: high impact nightclubs, DJ monitoring

SPECIFICATIONS

Frequency Response	140 Hz - 20 kHz ±3 dB
Efficiency	100 dB 1w/1m
Crossover Point	1.6 kHz Passive
Impedance	8 ohms
Power Handling	500 Watts AES
Maximum Output	127 dB cont
Driver Configuration	1x12" - 1x1.5" coax neo
Mounting	Tilt Adjustable Mount (optional)
Dispersion	70°H x 40°V
Connectors	1 x 4 pole speakONTM NL4
Enclosure	Smooth Cellulose
Dimensions (WxHxD)	718.5x415x23.5 mm
