POWERSTROKE®3 COATED 12" DRUMHEAD

The coated drumhead is slightly warmer than clear heads. They're known for their bright warm tones, resonance, and sustain. Coated heads are best known as batter and resonant heads warming up the sound of tom-toms and bass drums. The Clear Powerstroke®3 features a thin underlay at the outer edge of the head to subtly dampen unwanted overtones. This creates a near-perfect balance of response and tone control that has quickly made Powerstroke 3 one of Remo's most preferred drumheads.
