CUSTOM SHOP GUITAR QUICK CLEAN

Fender Guitar Quick Clean is a positively charged anti-static formula that resists dust, sweat, grime and fingerprints. Ultraviolet protective coating increases the gloss and depth of guitar finishes. Safe to use on all finishes, including nitrocellulose. Also works well on chrome and plastic.

Fender Custom Shop polishes and waxes are high-grade carnauba formulations containing no silicones, resins, polymers, bonding agents or alcohol.

Our polishes are compatible with all finishes, including nitrocellulose. Fingerprinting and streaking on black finishes is greatly reduced, with absolutely no cloudy build-up.
