MIGHTY SPACE

30 WATTS DESKTOP WIRELESS MODELING AMPLIFIER

Powerful, flexible, wireless and battery-powered: grab your guitar, bass or acoustic and you're ready to churn out riffs and licks right away without wasting time with cables and power supplies.

Mighty Space is the wireless desktop modeling amp that condenses all NUX technology into a compact and lightweight format without sacrificing quality and power: 30W, lots of legendary amps for electric, bass, and acoustic, high-definition IR with IR loader, a complete EFX section in freely sortable blocks, and all the convenience of a flawless wireless transmission combined with a dual battery that guarantees 7 hours of use.

You can also drive the Drum & Loop function via the included NMP-2 Lite pedal, edit presets in depth with the dedicated App, and load third-party IRs with Mighty Editor™ software.
