Use Right Out Of The Box, No Programming Necessary!

Includes 200 songs (that you control!) in a wide variety of genres – and 10 different drum sets those songs can be played on.

You'll be sure to find your beat.

- First tap:** Start beat (with optional intro fill)
- Tap once:** Insert fill (different fill each time)
- Hold down:** Begin transition
- Release:** End transition & advance to next song part
- Double tap:** End song (with optional outro fill)
- When no song is playing:** Hold down to enter tap tempo mode

A Drum Machine That Doesn't Sound Like A Machine

All beats are non-quantized recordings of real professional drummers for natural authenticity.

Up to 15 high quality samples per drum set component across multiple dynamic layers.

Round Robin playback and advanced loop transition algorithms create ultimate rhythmic realism.

The way drums should sound.

- When song is playing:**
Pause/unpause beat
- When no song is playing:**
Advance to next song in the folder

Inserts accent hit
(can be any sound & different for each song part)
Optional customization: Dedicated tap tempo

Visual Feedback

The BeatBuddy displays what's going on with the beat through an intuitive, color-coded design, making it perfect for improving your rhythm or learning new time signatures.

Visual Metronome (dark bar) displays where the beat is in the measure

Screen color displays what song part is playing:
